1	Thanks for a great semester!	🔍

2	Hello Professor, This course deepened my understanding of both the Solow and Romer model which will help me in future economics courses. The evaluative assignments were challenging but necessary for development in this field. I appreciate the collaborative nature of the course with respect to the group assignment. Sometimes lectures were unclear but after some review he course content all fell in place. Thank you for a great term!	🔍
3	Great Professor! Hope to have him again for another class.	🔍
